

What does roadside assistance cover?

- * Tow service within a 15-mile radius or to the closest repair shop beyond 15 miles.
 - * Winching services within 100 feet of a road for vehicles stuck in mud, snow, water, or sand.
 - * Jump-start services for dead batteries.
 - * Towing for electric vehicles to the nearest charging facility.
 - * Locksmith services for lost or locked-in keys.
 - * Assistance with changing a flat tire.
 - * Fuel delivery (cost of fuel is paid by the customer).
- If you're insured with Progressive for your car, chances are you're eligible for their roadside assistance coverage.
 - Additionally, if you have this coverage, you might have the option to include trip interruption coverage, provided it's offered in your state.
 - This trip interruption coverage can be particularly handy if you experience a breakdown more than 100 miles away from home.
 - It can reimburse you for expenses like lodging, food, and transportation, up to \$500, while you wait for repairs.
